KL-CATALOG-2007 ©2007 Hubbell Electrical Products Printed in U.S.A.

INNOVATIVE THINKING HAS MADE US AN INDUSTRY LEADER.

At Killark we are committed to on-time, error-free deliveries of products that meet the highest level of customer expectations. With over 90 years of extensive experience, Killark is a leading manufacturer of weatherproof, harsh and hazardous location products suitable for standard, explosion proof and other hostile and adverse environment applications. These products include conduit raceway fittings, junction boxes, enclosures, lighting fixtures, plugs & receptacles, plus standard and custom controls. Killark is a major participant in the OEM, commercial and industrial construction and MRO segments of both the domestic and international electrical construction materials market.

As a division of Hubbell since 1985, increased levels of capital have funded major new product initiatives and have enabled Killark to compete across the entire spectrum of electrical construction products on a global basis. With Hubbell's acquisition of Chalmit Lighting, the company has become the leading manufacturer of floodlighting for hazardous locations globally.

Hubbell has Codes & Standards representatives in the US, Canada, Mexico and Europe, enabling Killark, Chalmit and Hawke to be at the forefront of Global Harmonization. These efforts enable the most cost competitive solutions to user requirements regardless of the destination of the installation.

Today Killark is known for individual customer solutions to complex hazardous location requirements. Utilization of existing designs coupled with value added engineering enables lower total installed cost systems with a lifetime of savings.

Comprehensive lab capabilities allow R&D efforts to support new product development as well as user defined requirements. Together with our Total Quality Management Program and ISO 9001 certification, we are dedicated to meeting your needs, whether it's engineering a new product or on-time delivery.

Outside the USA Killark operates through Hubbell sales offices in Canada, Mexico, the United Kingdom and the United Arab Emirates, Singapore, Korea and Taiwan. Killark also has sales representatives in Venezuela, Columbia, Australia, Guam, Saudi Arabia, Bahrain, and the Philippines.
